**STOP THE CRUELTY!**

**TELL THE KOREAN GOVERNMENT  
TO BAN BEAR FARMING**

Dear Minister Lee Chi-beom,

The Korean government's tolerance and encouragement of bear farming is deplorable and a very poor reflection on your country's attitudes about wildlife and the environment. Bears are wild, endangered animals and should not be treated as livestock, but deserve the government's protection from exploitation, abuse, and slaughter.

Please begin to make the much needed changes to protect Korean bears:

- Ban all farming, shut down existing farms and offer compensation packages to farmers
- Establish a properly funded bear sanctuary at Jiri Mountain where the farmed bears can be released, monitored and properly cared for
- Ban all DOMESTIC trade in bear parts in addition to international trade
- Educate the public about synthetic bear gall alternatives and about conservation of the environment
